Medical Insurance

- As per our government policy, all international students will be automatically enrolled in the Korea National Health Insurance upon receiving their alien registration number after arriving in Korea. The estimated cost for this insurance is around 50-60 USD per month.

However, for added safety and to ensure coverage during their initial period in Korea, international students are **required to submit their travel insurance plan separately.** The exact issuance date of the alien registration number is uncertain, as it typically takes more than two or three months to receive it after the start of the semester. Thus, having comprehensive travel insurance that covers this period is essential for the students' safety and well-being.

For more information about the National Health Insurance Service(NHIS) and the application for exemption, please refer to the following link and directly contact NHIS. [Global One-Stop Service Center \(yonsei.ac.kr\)](http://www.gossc.yonsei.ac.kr/)

- The proof of health insurance should include:

- Full name of the insured
- Period of coverage - must be valid during the stay
- Place of coverage - must be valid in Korea

- **Students will not be officially registered until proof of health insurance is uploaded on our application system.**

Visa

- International students must submit the following documents to a local Korean Embassy or Consulate. Additional documents may be required depending on your place of residence.

1. Certificate of Admission (to be sent by Yonsei)
2. Yonsei Business Registration Certificate (to be sent by Yonsei)
3. Passport
4. Visa application form

<https://www.hikorea.go.kr/board/BoardApplicationListR.pt#>

* Students with foreign nationalities must apply for a D-2-6 visa (exchange student visa) to study in Korea. Studying in Korea with different types of visas (ex. tourist visa like B-1, B-2) other than D-2(Student) is STRICTLY PROHIBITED by the Korean Immigration Office. It is strictly the student's responsibility to enter Korea with a D-2(Student) visa, and our office does not hold any responsibility for problems that may arise from students entering Korea with tourist visas.

5. Bank statement
6. Other documents as indicated by the local consulate

★★★[Important Note for Students with KOREAN HERITAGE]★★★

***Applying for D-2-6 visa is NOT applicable to Korean passport holders, as Korean citizens do not need to obtain a student visa to study in Korea.**

*Students with Korean heritage may encounter special requirements concerning visa issuance due to dual nationality issues, particularly related to military service for male students. Below are some typical examples to consider. **Given that this process usually takes more than two or three months, it is crucial to confirm your status in advance with the Korean embassy in your region and make necessary preparations for your visa application.**

■Example 1: If students are living abroad without registering their birth in Korea, they must first register their birth in Korea to either obtain a Korean passport or proceed with the necessary steps to renounce their Korean nationality.

■Example 2: In cases where a parent acquires foreign citizenship without declaring a renunciation of Korean nationality, their child automatically becomes a dual citizen. Although acquiring foreign citizenship automatically results in the loss of Korean nationality, **it is essential to DECLARE a renunciation of Korean nationality to an immigration office in Korea.** Parents who give birth to children after acquiring foreign citizenship often assume that their child will not have dual citizenship. However, they later realize that this is not the case. In such situations, if a student wishes to obtain a Korean passport, parents must complete the following steps: 1) declare their loss of Korean nationality, 2) register the birth of their children in Korea.
